Dear Sir or Madam:

On January 21, 2016, Monica Gibson of Liskow & Lewis submitted a request pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, for copies of certain documents relating to the EPA's "Toxicological Review of Chloroprene," September 2010, report EPA/635/R-09/010F. I am hereby submitting this supplemental and restated FOIA request for all such documents that were provided in response to Ms. Gibson's FOIA request and other documents as described below.

These documents are being requested for commercial use. We agree to pay all fees chargeable under the regulations, 40 C.F.R. part 2, for locating, reviewing, reproducing, and mailing the requested documents. If such fees exceed \$1,000.00, please call me at 504-556-4192 before proceeding further in responding to this request.

This request does not include company trade secrets or commercial or financial information that is not otherwise publicly available. To the extent that a responsive document contains such exempt information from other companies, we request that you provide a redacted version of the document.

For any document that EPA redacts or withholds on the basis that the document is privileged and/or confidential or on the basis that the document is covered by an exemption to disclosure set forth in the FOIA, please provide an index that generally describes the document redacted or withheld and sets forth the basis for the assertion of privilege or application of the FOIA exemption. In addition, where a responsive communication or email references an attachment, please include the attachment in the response.

This request does not include information that is available to the public via www.regulations.gov, in Docket Number EPA-HQ-ORD-2009-0217.

For purposes of this request, (a) the term "document" means all written or recorded material of any kind or character in your possession, custody, or subject to your control or within your knowledge, including without limitation documents, statements, letters, correspondence, papers, memoranda, notes, records, reports, studies, interoffice communications, calendar and diary entries, microfilm, microfiche, bulletins, electronic mail, circulars, pamphlets, messages, invoices, maps, charts, tabulations, summaries or abstracts, tape or digital recordings, work sheets, calendar entries, any notes or writings pertaining to any meetings or oral or telephone communications, surveys, graphs, statistics, tables, computer print-outs, photographs, rules, regulations, opinions, orders, directives, interpretations, procedures, guidelines, manuals, and all other documentary material (including material transmitted and/or stored electronically), including non-identical copies (whether different from the original because of any alterations, notes,

comments, or other material contained thereon or attached thereto or otherwise, and whether a draft or final version); (b) the term "relate to" and its cognates means to make a statement about, set forth, refer to, discuss, describe, reflect, identify, deal with, consist of, explain, comprise, or in any way pertain in whole or in part, directly or indirectly, to the subject; and (c) the terms "Environmental Protection Agency" or "EPA" refer to all offices of the U.S. Environmental Protection Agency, including all Regional Offices.

Please provide copies of documents relating to communications between EPA personnel and persons outside of EPA, including EPA contractors and state environmental agencies, relating to:

1. Copies of all studies upon which EPA relied in developing "Toxicological Review of Chloroprene," September 2010, report EPA/635/R-09/010F, including those cited therein.
2. Communications within EPA relating to the development of "Toxicological Review of Chloroprene," September 2010, report EPA/635/R-09/010F, including, but not limited to, drafts of the report and comments on drafts.
3. Communications between EPA personnel and EPA contractors relating to "Toxicological Review of Chloroprene," September 2010, report EPA/635/R-09/010F.
4. EPA's preparation of, collection of data for, and results of data analysis for the "Toxicological Review of Chloroprene," September 2010, report EPA/635/R-09/010F.
